Boron 10-Liquid

Crop Nutrition Supplement

Chemurgic's Boron 10-Liquid GUARANTEED ANALYSIS

Boron (B)...... 10.0% Derived from boron ethanalomine.

Information regarding the contents and levels of metals in this product is available on the Internet at http://www.aapfco.org/metals.html

KEEP OUT OF REACH OF CHILDREN

Read entire label before using this product.

Precautionary Statements: This product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling.

GENERAL INFORMATION:

Boron 10-Liquid is a water-based formulation intended for agricultural use for plant nutrition, suitable for soil and foliar applications. **Boron 10 -Liquid** is a concentrate. Never apply without first diluting or phytotoxicity may result.

Mixing and Compatibility: This product may be mixed with most liquid fertilizers, micronutrients or pesticides. When mixing with pesticides, dilute this product with water prior to adding pesticides or buffering agents. Jar testing for chemical compatibility and small scale spot testing on plants for possible adverse affects is recommended.

CAUTION: Boron toxicity resulting in foliar damage or crop injury can result if too much product is applied. Following rate recommendations based on soil tests can help minimize the risk of adverse affects. Never use in soil applications that will put this product in direct contact with sown crop seed. For foliar applications, mix at least 1 gal. of water to 1 pt. of *Boron 10-Liquid*.

DIRECTIONS FOR USE:

Fruit and Nuts:

Almonds

Apples

Soil Applications: Apply with sufficient total volume of solution to cover soil around plant. Boron must be moved into the root zone for uptake by means of rain, irrigating or tilling.

Foliar Applications: Boron does not readily move through plants. Multiple low-rate applications through the growing season are recommended for best results. Uptake is best achieved when applied in early morning or late evening using a total volume of solution sufficient for thorough coverage.

Recommended Application Rates Per Acre:

1 - 5 qt. 1 - 2 gal.

1 - 2 qt. 1.125 - 3 gal.
