Manufactured in U.S.A. by:
LignoTech USA, Inc.
100 Grand Avenue
Rothschild, WI 54474

BorreGRO® HA-2 promotes the uptake
of micronutrients.

BorreGRO® HA-2 may be applied alone
or with liquid fertilizers with a pH of 7.0 or
higher.

Compatibility can be simply checked by:

- Mixing each product in a clear
container in the same proportion to be
used in the field
- Agitating vigorously for at least 30
seconds
- Visually observing for precipitate

Always consult the Safety Data Sheet for
instructions on proper handling.

representative to make any warranty,
guarantee or representation, expressed or
implied, concerning this material or the
use thereof, except in conformity with the
statements on this label. Neither
LignoTech USA nor the seller shall be
responsible in any manner for any
property damage or personal injury
resulting from the use of this material not
in accordance with directions. The buyer
assumes all risk and liability resulting from
improper handling, storage or use and

GUIDELINES FOR USE:

BorreGRO® HA-2 can be applied to all
crops including fruits, vegetables, trees,
vines, flowers, ornamentals, turf, grain
and other row crops.

Application rates and frequency are
dependent upon soil and climate
conditions present. Typical application
rates range from 2 to 10 pounds per crop
per acre per season.

BorreGRO® HA-2 may be applied
through conventional methods but not
limited to
foliar spray, soil application, drip irrigation,
water run, shanking in or hydroponically.

Follow the labeled rates for nutrients
and/or consult with your local PCA.
