DIRECTIONS FOR USE

TREES AND VINES: Apply up to 10 pounds per acre with sufficient water for thorough coverage. Apply as many times as needed. As a sunblock material, a 10-pound application should last for about 2 weeks. Timing and frequency of rate depend on temperature, cloud cover, leaf coverage, type of fruit, and fruit growth.

ROW CROPS: Apply 5 to 7 pounds of SUNblocker. per acre with sufficient water for thorough coverage. Apply as many times as needed. As a sunblock material, a 5 to 7 -pound application should last for about 2 weeks. Timing and frequency of rate depend upon temperature, cloud cover, leaf coverage, type of vegetable, and vegetable growth. If using SUNblocker with phosphate or phosphite materials, add phosphonate or phosphite materials first, mix, then add pesticides. Add SUNblocker last to the full spray tank with agitation running. Spray immediately

Caution: This material may cause moderate eye or skin irritation. Avoid contact with eyes. Use adequate ventilation and avoid breathing dust. Wear goggles and a suitable dust mask (e.g. NIOSHMSHA TC-21-c or ISO 1716 Class PI)

STATEMENT OF PRACTICAL TREATMENT

If in eyes: Flush eyes with water. If irritation Develops, consult a physician.
